

# Global Outsourcing Solutions

## Why Global Outsourcing Solutions?

At PwC Argentina we have an integrated team of multidisciplinary professionals who design tailored solutions and are trained to meet all your compliance needs for accounting, tax and payroll.

We use technology tools designed for process automation, including Robotic Process Automation (RPA) and documents digitization, among others. We also have channels of communication with high levels of security for the exchange of information.

Further, our global network allows us to offer this service in various countries under local coordination.

## Why+?

- + We are a multidisciplinary team who provide comprehensive and compliance advisory services ensure efficient business and regulatory processes.
- + We have experience in all types of local industries and we are backed by a global network.
- + A team of 120 professionals working in integrated teams.
- + We have a proven track record with more than one hundred years' experience in Argentina.
